

RxNT's Electronic Health Records is an ONC-certified solution, which can stand alone or be fully integrated with RxNT|eRx and RxNT|PM.

DASHBOARD:

- ✓ Monitor prescription status, approve pending prescriptions, and confirm refill requests
- ✓ Review lab results in real-time and add relevant notes
- ✓ Determine which encounters need to be closed (or signed)

CHARTING & ENCOUNTERS:

- ✓ Choose from specialty specific templates and customizable sub-templates
- ✓ Create and update a comprehensive patient history
- ✓ Attach and organize important patient documents within the chart
- ✓ Review ALL patient medication history
- ✓ Meet MACRA requirements

LAB ORDERS & RESULTS:

- ✓ Request lab orders
- ✓ Access lab connectivity
- ✓ Add & save comments
- ✓ Receive real-time alerts and updates
- ✓ View results that automatically flow to the patient's chart
